Start Your Own Celebrity Gossip Chat Room For Babies At Home, Children, Kids And Other Women!  
NEW YORK, NY -- (Marketwired) -- 04/16/14 -- MEDICI at Ilion today announced the launch of the new MEDICI VIP (with Baby KiP) service, bringing all the money saving and baby-friendly features found in its flagship baby service, with additional unique features that are only available with Baby KiP. The service provides a rich database of birth parents, hospital information, photos, descriptions and prices for the two leading birth services for babies in the U.S. -- Cesarean and VBAC. We're proud to partner with Yelp, the world's largest online review site, to help parents find the best baby service in their neighborhood and make informed decisions about where to give birth. When it comes to choosing a birth center and hospital for a home birth, parents often feel as if they're getting

---

conflicting information -- and that can be confusing and frustrating. Parents also often worry they'll forget something important before they deliver at the birth center. With the launch of MEDICI VIP, parents now have all the information they need to research and compare the two leading birth options for their families before making a decision about where to give birth. "We created MEDICI VIP to give parents the best information, the tools to navigate the selection process, and the peace of mind that comes from knowing everything is taken care of and that they can focus on delivering their baby," said Maggie Bair, founder of MEDICI. With this service, parents start their research with the birth parents' book of choice -- their birth partner, written by other parents that had the same experience. Now parents can search the entire database of birth parents for a birth center or hospital in their area. Parents then can select a list of the best parents, and then the best hospital and birth center for their chosen birth method. Parents can also search for baby photography, birth center reviews and prices for the best prices in their area for these services. Parents can also review their birth choices and potential costs for labor support, postpartum supplies, nannies and other care services. Parents can shop the database to compare the fees of these services for themselves and their family. Other services that are only available with Baby KiP include the Rosalie Console that provides newborn photos of other babies born the same day and a
