“The Rise of Tarnished” THE STORY. What is the magic that can easily be written into existence even if the paper is torn? As you try to grasp the truth, a scattered world in ruins was turned into a world where magic was born from light and scattered with power. A world with a sky full of stars that fills the whole sky and a world with oceans that are separated by lands between them. In this world there is an area that has been placed under a spell and an area where the light is strong, but no one has ever stepped foot in. The Tarnished, born from a trace of

the light, seem to be a race of creatures that were the first to ever arise from magic, and they bear the abilities to use power. In this world, there are people who have left the light. In the face of powerful magic, they did nothing, while those in the light seemed to be constantly fighting. The Tarnished were born in the Lands Between, and this story that is told in fragments is about them.

GAME-PLAY. Choose a 1v1 multiplayer battle or a 2v2 battle to face the story that unfolds from a different perspective. The Battle System. Introducing the new Battle System based on our game, Fantasy Generations. You can freely control all of your characters on the field of battle in real time, aiming to overwhelm your opponent by means of cooperative actions. In a battle, you will have up to two characters. You can freely command them, and actions can be freely combined and coordinated, thus allowing you to easily and flexibly shape the battlefield. The battle system can be optimized for a 1v1 battle or a 2v2 battle,

and will be adjusted depending on the number of players. In a multiplayer battle, you and your opponent will both be represented by their avatar. The battlefield will be divided into squares. Every square corresponds to a number of points. A number of points equal to 1 will be added to a character at the end of a battle. This number will be used as the number of points when determining the Battle Rank (which will be introduced in the future). Counting the number of points based on the number of squares that you enter an action on, you can be sure that you are about to exceed or fall short of a battle rank
