beautiful game to life on the world's premier video game consoles, delivering a new generation of football gaming that is more authentic and thrilling than ever before, backed by the revolutionary "Powered by Football" technology. Players can now experience the game's most authentic, complete and interactive football gaming experience. Features Simulate the authentic emotion of the game with new Player Behaviour and Goalkeeping mechanics. Player Behaviour now simulates a multitude of game-related events, such as fouls, physical challenges, and injuries. Shoot and Score an extra-time winner with the "Low Feet" goal celebration, a new Goalkeeper Cool-Down feature and the new "Left Foot Curl" celebration. Tackle Opponents with more aggressive, tighter, and more accurate defensive positioning. Change Defenders' Tactical Formation with real-time control. Using new Player Control, defend in an entirely new way: set-up a quick clearance trap before the opponent's attack, shift on the run to pressure your opposition, or even build up a counterattack. Overcome the increased congestion of the Big-Four European leagues with unique Tactical Replays and a new streamlined Extended Tactical Response system. Feel what it is like to play on the biggest pitches in the world and introduce yourself to the FIFA community at the 2015 FIFA Interactive World Cup. New Features Introducing "Powered by Football." Real-world Club leagues around the world have gone through a renaissance, with Europe's Premier League recently surpassing \$9 billion in total revenue. In the past, only dedicated Football simulations could leverage this heritage - but now the game has been reworked to harness the best of it, with everything from the way you shoot to the way your defenders defend designed specifically for a football gameplay experience. You'll find that Player Behaviour, Goalkeeper Play and the way you control the pitch have all been improved. New "EA SPORTS Soccer" Game Engine. Enjoy an all-new "EA SPORTS Soccer" game engine that is capable of up to 90 frames per second and rich in visual detail. New visuals, animations and pitch surfaces have been created, and more precise, detailed movement and collision physics combined with new, more realistic bc9d6d6daa
