Freeze Tag Fun Pack 2 X64 2022 [New]

1. 2D Side-Scrolling Shooter Game This game has very simple controls. The heroine, an arrogant cat, is being targeted by the Demon King's army. [1st Location] Warrior's Fight I could not decide whether to make this in 2D or in 3D. On the internet, there are many reviews saying it looks awesome in 3D. I did not feel it, so I selected 2D. [2nd Location] Red Caves From the beginning, the cat aims for the girl's locker room, where the girl is taking a bath. The cat falls, and the girl swipes at the cat with a knife. [3rd Location] Cleaning Competition After the girl swipes at the cat, they are on a roof, and the cat has dropped from it. The player can choose which of the cats lives or dies in this room. [4th Location] Sanctuary of the Demon King In this arena, the cat fights "2 types of zakos". The zakos' attack patterns are similar to those in "Red Caves". [5th Location] Final Fight The Demon King, who is disguised as a young boy, finally appeared. He attacks the girl. Now the cat is in a very dangerous situation. Game Features: 1. EASY to control, with no difficult "complex" motions 2. You have 2 types of shots to move. Use the AZ shot or the BX shot 3. The enemies range from ordinary to powerful. Select the appropriate attack 4. You can choose 4 difficulty settings (Easy, Normal, Hard, Very Hard) 5. Equal ranking for both male and female players 6. The game ends when you clear the game or when the cat dies 7. The background music of the cat is a classic golden classic-style, so it is really nostalgic 8. If you miss a shot, the damage is reflected on the right side of the screen. 9. The score of your performance is recorded and you can see the score when you clear the game. 10. Supports Xinput and DirectInput controllers 11. Game recorded data can be deleted from the HDD by using an Editor 12. First-person view shooting, shooting from a side view 13. High-quality background art. 14. Automatic resizing of the game screen 15. Slow motion 16. 9 life stages 17. Support the latest controllers
