archive in python? I have created a backup archive of a database. The archive itself is saved in my hard drive and consists of zip files. I am trying to open a specific zip file and create a text file in the zip archive. zip\_file = zipfile.ZipFile(folder\_name) zip\_file.extractall(zip\_path) file\_name = zip\_file.namelist()[0] folder\_name = zip\_file.namelist()[1] file\_name\_list = [] for file in file\_name: file\_name\_list.append(file) for file in file\_name\_list: open(folder\_name + file, 'w') This gives me an error OSError: [Errno 2] No such file or directory Does anyone know what to do? A: I think open doesn't support searching path, so I think you can try following code: zip\_file = zipfile.ZipFile(folder\_name) zip\_file.extractall(zip\_path) for file in zip\_file.namelist(): folder\_name = folder\_name + os.path.sep + file # Add separator file\_name = os.path.sep + file #
