One of the most exciting technologies that we are seeing on a daily basis is the emergence of the Smartphone. The latest word is that Apple, the giant from Cupertino is planning to release a new iPhone called iPhone 5S. This is not the first time that this is being rumored. We have mentioned the rumor earlier. Previously, it was Apple's iPad which was rumored to be getting a new version, but it seems that is not happening this time. This time, it is iPhone 5S. The new cell phone will reportedly be available for around \$549 with a two-year service contract. The report came from CNBC. The new iPhone 5S is reportedly going to be available in two models – the 16GB and the 32GB. The new cell phone will be available in space gray and silver colors. Also, it is reported that it will feature a new A7 chip. In previous iPhones, Apple has never launched a phone with

the A7 chip. The A7 chip will reportedly be powering the camera and other advanced features of the new iPhone. This is not the first time that the giant is launching a new iPhone. In earlier years, we have seen the
