Important notice to booking holders: Due to the temporary absence of our main office in London, we are currently only able to undertake small repairs to the exterior of your property. To speed up the process of being able to assess a structure we will require that you send us

images of the most vulnerable areas of your house. We always recommend contacting a qualified marine surveyor before making any repair works on your property. The below images are for illustrative purposes only and should not be regarded as a representation of the actual state of the property. Midland Marine plc is a British registered company formed in 2007. **OUR SPECIALISED SERVICES** We provide a complete marine survey and repair service for both residential and commercial properties. Our main areas of service are in Essex, Suffolk, East Anglia and London. We provide a complete marine survey and repair service for both residential and commercial properties. Our main areas of service are in Essex, Suffolk, East Anglia and London. If you require a marine survey for your building, please contact us. We can provide a full survey on a competitive price and quickly dispatch a qualified surveyor to your address. We will confirm that we have received your enquiry. We will ask you to confirm your name, telephone number and email address. The present invention relates to a fabrication technique for manufacturing semiconductor devices, and more particularly to a technique effective when applied to the embedding of conductive lines in a

semiconductor device and a method of embedding them. As one of methods of forming semiconductor devices, there is the technique of embedding conductive lines within a semiconductor substrate. This technique is disclosed in, for example, Japanese Published Unexamined Patent Application No. Hei 11(1999)-74997 (paragraphs [0014] to [0018], FIGS. 1 to 3, etc.). A technique of embedding a conductive line in
