India Home Health Care company has its own emergency medical care centers, which are serving in India and all over world with best emergency medical care facilities.Q: Is there any way to read.p12 certificate from iPhone SDK? I want to use.p12 certificate but when I want to read that certificate on iPhone SDK, it always has error. So I'm using NSError* parseError. But It always returns nil. Does anyone know how to read.p12 certificate from iPhone SDK? A: There is no way you can read from the device files - there is no way of reading.pfx files. However, you can write your own program to read from the device and save any data to a custom database. In order to get the information from the device, you can use the keychain API. I do this in my own app by reading in a.pfx file from the NSUserDefaults and then saving the string to the keychain. So c6a93da74d
