
Shunya Yamashita Beautiful Noise

all in all the book is fun to read and the artworks are really nice. if you've seen some of his artbooks or have the previous books, you'll notice how he improves his work. i'm not a fan of the cover since i don't really like the character but i actually think the artbook looks very nice. it makes you want to go back to the comics or watch the shows with the artwork in it. theres nothig unique about beautiful noise (especially if you already own wild flower and one voice), but if youre a fan of shunya yamashita, youll definitely have to buy it because the quality is there, as always! one can only dream.he would be happy and so is he.what an amazing artist!!!! will buy one but to give me an idea as to the price. would it be worth buying a japanese book of his?if so, would it be considered as art in japan? theres nothign unique about beautiful noise (especially if you already own wild flower and one voice), but if youre a fan of shunya yamashita, youll definitely have to buy it because the quality is there, as always! imagine if kotobukiya, shunya yamashita and mortal kombatwould release a new line of figures - mortal kombat bishoujo.i think they are perfectly complemented the collection of characters to other fighting games like tekkenand street fighter, and would look cool with female versions of freddy krueger and jason voorhees, or with characters from dc comics like mortal kombat vs. dc universei would like to supplement their collection by such figures;) the next part is pretty big and contains copyrighted illustrations with various characters from the marvel universe, mass effect, evangelion and so on. once again its a mix of color and b&w with beautiful images, model sheets, etc.
