# Flatout Ultimate Carnage Mods

## ^HOT^

the mod can be used with two options. if you want to play with 3d vision, you can use the version that will support the valve vr headset. this is the mod that comes with the first flatout game on steam. if you don't have a valve vr headset, you can use the mod that works with the vorpx virtual reality extension. this option is more expensive, but it gives the best performance boost. our ideas at the time the prototype was created was a casual game, just a prototype to see if the concept was good. this is a weird part of the whole story, because the concept was good, but we never took it further because we wanted to avoid commercializing the game concept by developing the game. we worked on this idea for around 6 years, before we decided to take on a big risk and take a new concept for a racing game to heart, and this is when we gave in to flatout fans and started a development of the concepts we had and the resources we had. the only changes we made was to switch from a 2-d side view to a 3-d third person perspective, instead of cars and tracks being in the same plane (like in flatout) we switched to a 3-d perspective. this meant we could have more tracks and different track types, and offer more immersive racing experiences, we also changed the game mechanics slightly, but this was mostly minor, the game mechanics of flatout didn't change much. the game is, as i said, a little rough around the edges, but we are already working on balancing, ai, ai teams and more. we have also started to add titles to the game, which will make this game feel more like a flatout game, instead of a never completed, prototype that never took off. these titles will be a bit more difficult than the default game. the titles we have in mind at the moment are as follows:

### **Flatout Ultimate Carnage Mods**

---

the ultimate carnage : car crash mod offline :you can not connect to the internet and you can not enter the game then you must shut down internet access. be quick and destroy everything in your way!jump in the traffic and create the biggest car accident to gain more and more xp to unlock cars and maps!weekly updates with new maps, new cars and many more things!included for now :- 5 unique map- more than 60 unique carsyou also help our studio to grow more and create even more awesome car games! the ultimate carnage : car crash mod gameplay:choose a car to race in a city with a lot of traffic. choose the number of laps you want to race, choose your goals, the curve, the size of the track, the number of cars, etc...!every time you decide to get out of the car, you must find a garage to heal your car, a new car, a new race, etc...or you can race alone and be the first to finish the race!
