# Hard Boiled Wonderland And The End Of The World Epub 52 ((FULL))

A few years ago, I read another novel by Haruki Murakami, which was called Cool Wonderland and the End of the World, and although I really liked this book, ###, but now I have the idea that this is not the end of the world, but just the beginning of something new, something very important. Since everything in the world is cyclical, everything has a beginning and an end, including human life. And this book is about the fact that at the moment of death you must definitely leave everything negative behind, forget everything bad, and enter a new stage in your life with a pure mind and a bright soul. So, this novel is a kind of "spiritual testament" of the author to humanity.
